# Abhimanyu Tiwari | Product Designer

Product Designer with 4.5+ years of experience designing web and mobile products across iGaming, SaaS, real estate, and energy management domains. Skilled in UX strategy, user flows, interaction design, design systems, AI-assisted workflows, and scalable UI design. Experienced in collaborating with cross-functional teams to deliver business-focused, user-centered digital experiences.

## Core Skills

Product Design • UX Design • UI Design • User Research • Wireframing • Prototyping • Information Architecture • Design Systems • Interaction Design • Responsive Design • User Flows • Journey Mapping • Visual Design • Accessibility • Generative AI • Figma • Adobe Creative Suite

## Professional Experience

**Peak42 (Formerly Vume Interactive) | Product Designer | Aug 2023 – Present**

• Designed and delivered custom iGaming website templates aligned with business goals and brand requirements.

• Created scalable design systems and reusable UI components, improving design consistency across projects.

• Collaborated with stakeholders and developers to translate business requirements into production-ready designs.

• Designed landing pages, promotional experiences, banners, and user journeys that improved engagement.

**EsportsXO | UX/UI Designer | May 2022 – Jun 2023**

• Redesigned BattleXO web and mobile experiences to improve usability and user engagement.

• Revamped homepage and dashboard architecture for clearer navigation and faster decision making.

• Designed tournament participation and tracking flows that simplified user onboarding and retention.

• Established a consistent gaming-focused design language across platforms.

**Elmeasure | UX/UI Designer | Feb 2022 – May 2022**

• Designed dashboards for electricity consumption monitoring and appliance-level insights.

• Simplified complex energy data through intuitive visualizations and user-centered workflows.

• Contributed to ARC fee management platform launched at Education World Awards 2022.

**Kastech Software Solutions | UX/UI Designer | Apr 2021 – Jan 2022**

• Designed real estate discovery workflows with advanced search and filtering capabilities.

• Conducted UX research and journey mapping to improve property exploration experiences.

• Worked closely with engineering teams to deliver user-centered solutions.

## Selected Projects

• BattleXO Website Revamp – Improved navigation, engagement, and tournament participation experience.

• CHOMP – AI-powered food discovery and recipe recommendation application.

• FlytBase Case Study – Disaster response and decision-support UX exploration.

• Zepto AI Search Enhancement – Product thinking case study focused on AI-assisted shopping.

• Netflix Already Watched Feature – UX concept improving content discovery.
